SharePoint Document Library Tool

Improve every document library

Document Library Pains

- I don't know what's in the Library, How big is it? Why is it so slow?
- I don't know who has access to what, I have no confidence about document confidentiality.
- I don't know our Libraries activity, are we using it?
- I cant audit anything, What about compliance?
- I cant move the Library anywhere, it is stuck where it is.

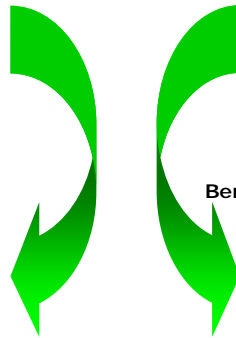

The cost

Many users do not have all the required tools to do their jobs, so they call IT. Therefore you have an over burdened IT department, as they are constantly dealing with the same complaints from many different users.

- Loss of productivity.
- More IT staff and IT costs.
- Unhappy users and IT staff is in need of counseling.
- Costly, error prone, ad-hoc jobs.
- No auditing and compliance capabilities.

DocLibTool is the solution

- Library Report — Get to know your Library and Documents.
- Permission Walker — Know who has access to what.
- Change Log Viewer — Monitor library activity.
- Auditing — Full auditing on you Library and Documents.
- Content Migration — Move your library to another site or another SharePoint farm.

Benefits

- **Benefit users** — give them tools.
- **Benefit Administrators** — Give them insights.
- **Benefit IT** — Reduce their burdens.
- **Benefit the Company** — Happier staff, lower costs less errors.
